Environmental Policy Statement

SWAX recognises that it has a legal and moral responsibility to manage its activities in such a way so as to prevent pollution and to reduce detrimental impact on the environment.

The SWAX business model aims to reduce the environmental impact of engineering services delivery through application of virtual working methods and tools to substantially reduce requirements for travel and premises, thereby achieving a significantly lower negative environmental impact. Furthermore, we aim to reduce the environmental impact of engineering services delivery by engaging resources in locations where there are lower greenhouse gas emissions per capita, thereby achieving a significantly lower negative environmental impact.

SWAX is committed to the continual improvement to reduce negative environmental impact from our work and the work of our clients, suppliers and partners.

SWAX Engineering is committed to:

- The implementation of this Environmental Statement and ensuring it is communicated, understood and maintained at all levels within the company and achieves its intended outcome.
- Ensuring that the company's day to day activities comply with all applicable environmental regulations.
- Setting environmental objectives and aligning environmental risks and opportunities with the context and strategic direction of the company.
- Monitoring the company's performance against environmental objectives.
- Operating in an ethical and responsible manner and provide finance and resources to continually improve our environmental performance.
- Providing employee training to ensure environmental issues are considered when managing our premises and undertaking our projects.
- Promoting a sustainable approach to business in partnership with our clients and other stakeholders by reducing emissions, safely disposing of hazardous materials, minimising consumption of energy and implementing waste reduction measures through a philosophy of Reduce, Reuse, Recycle.
- Reviewing and revising this Environmental Statement annually.

SWAX believes that our business model contributes significantly to improved environmental outcomes which in turn contributes to the overall success of the business. This requires commitment, co-operation and engagement from all parties.
