Quality Policy Statement

SWAX Engineering is committed to providing services that consistently meet and exceed the quality requirements of its clients. SWAX has developed and implemented a Quality Management System (QMS) as a key element in driving the overall efficiency and success of the business.

SWAX is committed to:

- Ensuring that all people that work for, or on behalf of, SWAX conduct their work to the highest technical and commercial standards and with the utmost professional integrity.
- Learning from experience by reviewing and monitoring performance then feeding the results back into our QMS and to our staff.
- Continually improving our QMS by determining and addressing the risks and opportunities that could enhance customer satisfaction or affect the delivery of our services.
- Performing work in such a manner that ensures human life and the environment are protected.
- Developing an environment and culture whereby the competency of SWAX personnel is continuously reviewed and developed so that the business delivers solutions that exceed our high standards and those of our clients.
- Maintaining a clear framework in which to set and monitor the business objectives and report on the effectiveness and applicability of the processes contained within it.
- Adhering to all relevant International and National Standards and Codes of Practice in delivering this statement.
- Reviewing and revising this Quality Statement annually.

The Directors, Management and Staff are responsible for Quality Control through the Quality Management System seeking improvement by constant review, with suppliers and sub-contractors being encouraged to co-operate. The Company is committed to achieving customer satisfaction by the use of quality procedures which will be operated to meet or exceed the requirements of ISO 9001.
